

# RACHEL DE MELO

## Landscape Designer

Rachel has a strong passion for horticulture and design which led her to pursue a career in Landscape Architecture. Her education at Fanshawe College for Landscape Design, and The University of Guelph for Landscape Architecture have provided her with a diverse skill set in both practical, and theoretical knowledge.

Rachel's interest in the natural world, and desire to be outside led her to begin working in the landscaping field; on landscape install, maintenance, and eventually design projects. Her creativity and determination continue to drive her to create unique and valuable designs to enhance communities.

Since joining our firm, Rachel has strengthened her design and technical knowledge through participating in the development of estate residential, subdivisions, commercial, industrial, and naturalization projects. Her experience includes the completion of conceptual plans, colour plans, working drawings, site inspections, detail drawings, and cost estimates.
